*Hopefully bringing smiles to faces  
during the Covid 19 lockdown*

A man goes to the doctor and says: 'Doctor, there's a piece of lettuce sticking out of my bottom.'

The doctor asks him to drop his trousers and examines him.

The man asks: 'Is it serious, doctor?' and the doctor replies: 'I'm sorry to tell you, but this is just the tip of the iceberg.'

When NASA started sending up astronauts, they quickly discovered that ballpoint pens would not work at zero gravity. To combat the problem, NASA scientists spent a decade and \$12 billion developing a pen that wrote at zero gravity, upside down, underwater, on almost any surface including glass and at temperatures ranging from below freezing to 300C.

The Russians used a pencil.

---

I stopped at a friend's house the other day and found him stalking around with a fly-swatter.

When I asked if he was getting any flies, he answered: 'Yeah, three males and two females.'

Curious, I asked how he could tell the difference.

He said: 'Three were on a beer can and two were on the phone.'

---

A man left for work one Friday afternoon. Instead of going home, he stayed out the entire weekend hunting with the boys and spending all his wages.

When he finally got home on Sunday night, he was confronted by his very angry wife.

After two hours, she stopped nagging and said: 'How would you like it if you didn't see me for two or three days?'

He replied: 'That would be fine with me.' Monday went by and he didn't see his wife. Tuesday and Wednesday came and went with the same results.

Thursday, the swelling went down just enough for him to see her a little out of the corner of his left eye.
